

### **Advertisement 1:**

Learn and Love it! It's time to enjoy education! Whether you are wondering where the secret cave to the fastest growing crystals are, or the world's tiniest primate, or the patent to the fastest method of petrification, it delves even further into the depths of mystery and in the microscopes of the most amazing discoveries of the centuries!

Join Scientists as they dig for dinosaurs, dive for treasures, launch into space in search for more answers to our origin!

It's better than it really seems as scientists from all over the place have dedicated their work and videos for our kids to see for free! That's right! No cost to you at all!

Whether it's learning about the scientific laws, the evolutionary hypotheses or theological aspects of science, equip yourself with solid answers that you can also get from our Scientist Blog!

Adventure awaits! So sign up today for a free archive that eventually will thrive into an amazing step by step club database with prizes, free materials, radio dramas, and videos! And look us up on any of your devices!
